The Chancellor's Award for University Service will be given to 10 employees at a ceremony and reception on Friday, October 24 from 3 to 5 p.m. in the Millberry Union Lounge.

The staff awards are given to employees whose job performance has been exceptional, and who have had a beneficial impact on the campus over a long period of time. They were nominated by their department head or supervisor, then selected by a screening committee. They had to have worked for UCSF for at least five years and are presently at the top of their salary ranges.

Each winner will receive a certificate, the UCSF medallion, and a check for $750 from Chancellor Sooy. They will be presented by George A. Evanoff, vice chancellor, Personnel and Student Services.

The honorees, and the number of years they've worked at UCSF, are: Mary Britschgi, laboratory assistant, Cardiovascular Research Institute (19); Pauline Burt, administrative assistant III, Department of Psychiatry (19); Mary Edith Dupuy, staff research associate, Epidemiology and International Health (20); Mary Freed, accounting assistant II, Hospital Accounting (15); Richard Hall, mechanic supervisor and electrician, Physical Plant (25); Mary Kahn, personnel analyst, Benefits Section, Personnel Department (10); Bernice Quinn, senior animal technician, Animal Care Facility (23); Sandra Smith, staff research associate, Pediatrics and chief technician, Biochemistry (19); Anna Taylor, principal food service worker, General Clinical Research Center (31); and Iris Ueki, staff research associate, Cardiovascular Research Institute (18).

NEWS BRIEFS

The latest steps taken in response to the recommendations of the Chancellor's Emergency Task Force on Personal Safety are:

GARAGE SECURITY

- For the past few weeks most pedestrian and vehicle entrances and exits of the garage have been locked from 7 p.m. to 6 a.m. and all day on weekends. During these hours, pedestrians coming from Irving Street should use the Ambulatory Care Center entrance and elevators to reach Parnassus. Drivers should use the Parnassus public parking entrance and exit, park on H level, and wait for the security shuttle. Bicyclists parking on the lower level of the garage should use the MU garage elevators.
- A two-way emergency intercom system between garage floors and the Police Department has been developed and installation will begin as soon as possible.

GENERAL CAMPUS SECURITY

- Peepholes in the doors along the corridors of HSE and HSW will be completed in a week.
- All employees, including those working evening and night shifts, who are interested in forming van pools and car pools, should contact Jim Wood, Transportation Office, extension 1511. A transportation representative is available to discuss pooling at staff meetings upon the request of the department manager.

SAFETY CLASSES

- Self Defense Workshops will be held Saturdays, October 18 and November 15, Room N 517, 9 a.m. to 5 p.m. Workshops are free for UCSF students, faculty and staff; general $15.
- Tear Gas (MACE) classes will be given on Wednesday, November 12, 5 to 7 p.m., Room C 130 and Thursday, November 20, Room N 517, 5 to 7 p.m.; free for UCSF students, faculty, and staff. Individuals are reminded that preregistration is required for admittance to all classes. For further information call x5683.

Oral arguments were presented to the State Supreme Court on SB 91, the lump sum salary inflation bill, early this month. The Court has until January 5, 1981 to decide if the bill is constitutional.

SB 91 originally was passed by the Legislature July 2, 1979 to provide salary inflation relief to State employees. It was challenged because of a constitutional ban on retroactive pay, but then ruled constitutional by the California Superior Court, then ruled not constitutional on November 29, 1979 by the California Court of Appeals, and then taken to the Supreme Court.

If ruled constitutional, the bill would provide to eligible employees a lump sum payment equivalent to 7 percent of the salary earned between October 1, 1978 through June 30, 1979. The issue of eligibility remains unclear since the original legislation provided that all employees on the payroll as of May 31, 1979 were eligible and the Attorney General's opinion last December was that only employees on the payroll on the effective date of the statute (except for retirees) were eligible.

If the Supreme Court decides SB 91 is constitutional, checks are expected to be issued within six to eight weeks following the decision.

The second UCSF Job Fair, sponsored by the Personnel Department and the Bay Area Urban League, is scheduled for late January, 1981. The purpose of the Fair is to make the community aware of job opportunities at UCSF and to recruit qualified applicants to fill positions on the campus.

If you wish to participate in this year's fair or participate in the planning of it, contact David Johnson at extension 2621 or 5874.

The Seventh Annual Troy C. Daniels Lectureship will be held Wednesday through Friday, November 5 to 7.

Donald M. Jerina, an expert in organic chemistry and biochemistry, from the Laboratory of Chemistry, National Institute of Arthritis, Metabolism and Digestive Disease, NIH, will deliver three talks on the subject of "Carcinogenesis — A Chemist's View." The individual lectures are: "Historical Considerations (The Way It Was)," Wednesday, 4 to 5 p.m., 300 HSW; "Stereochemical Considerations (The Way It Is)," Thursday, 4 to 5 p.m., 301 HSW; and "Theoretical Considerations (The Way It Will Be)," Friday, 11 a.m. to noon, 301 HSW.

The lectureship is named for the former dean of the School of Pharmacy and is sponsored by Barnes-Hind Laboratories.

Nominations for the 1981-82 Robert Wood Johnson Health Policy Fellowship are due in the office of the Vice Chancellor, Academic Affairs, Room 115-S by November 6.

The fellowship is a full-time working assignment in government, primarily congress, and runs from September 1981 to August 1982. It involves discussions with key health officials and seminars and orientation sessions on health policy.

Six fellowships are awarded each year to mid-career health professionals on faculties of academic health centers and medical schools. A UCSF faculty committee will be appointed to select one nominee from here. All categories of health professionals are eligible for nomination.

Health Policy Fellowships are administered by the Institute of Medicine of the National Academy of Sciences, with the cooperation of the American Political Sciences Association, funded by the Robert Wood Johnson Foundation.

A brochure describing the program and the procedures for submitting a nomination is available on loan from Keith R. Wilson or Nancy Vega, x1881.

The last portion of the Accounting Office move from A C7 to the Center for Educational Development took place in the beginning of October. The Accounting Office satellite office will remain open on campus at the A C7 address, Monday through Friday, 11 a.m. to 1 p.m. and 1:30 to 3 p.m. For further information during these hours call the satellite office at x5638; other hours, call x1340 or 1496.

The 15th Sterling Bunnell Memorial Lectureship Program will be held Thursday to Saturday, November 6 to 8. The program will feature Dieter Buck-Gramcko, professor of Surgery and chief of the Hand and Plastic Surgery Department, Berufsgenossenschaftlichen Unfallkrankenhaus, Hamburg, West Germany.

Buck-Gramcko will speak on "Operative Treatment of Special Congenital Malformations of the Upper Extremity" on Thursday in Cole Hall at 11 a.m., and on "Pollicization of the Index Finger for Thumb Reconstruction in Congenital and Trauma Cases" in the Conference Center at Pacific Medical Center on Saturday at 10 a.m.

The lectureship program which includes a three-day symposium held at UCSF, Shriners Hospital, and Pacific Medical Center, is presented by the UCSF Department of Orthopaedic Surgery and Extended Programs in Medical Education.

The School of Dentistry has been granted a one-year extension of the National Preventive Dentistry Demonstration Program which it has been conducting for the past three years among 2,000 children in 14 elementary schools of the Hayward School District.

The program is sponsored in 10 communities nationwide by the American Fund for Dental Education and supported by the Robert Wood Johnson Foundation. Data accumulated so far for 20,000 children across the country indicates that the program has been highly successful in reducing the number of cavities formed in young children, by utilizing various combinations of safe and effective preventive dentistry procedures including fluoride application.

Samuel J. Wycoff, professor and chairman of General Dentistry and director of Community Dentistry, heads the Demonstration Program for UCSF.

A three-member evaluation team representing the Accreditation Commission of the Western Association of Schools and Colleges will be at UCSF on Thursday and Friday, October 30 and 31. The purpose of the visit is to conduct a five-year review of the campus-wide accreditation which was granted to us in 1975. The visit is being coordinated by the Office of the Vice Chancellor of Academic Affairs.

An unusual half-million dollar research contract has been awarded to UCSF's Extended Programs in Medical Education (EPME) by the National Heart, Lung and Blood Institute.

The three-year study is to investigate "Methods for Evaluating Primary Physicians' Utilization of Knowledge of Respiratory Diseases," and includes 1) development of criteria for primary care physicians to use in the diagnosis and management of chronic obstructive pulmonary disease; 2) pre-testing and perfecting chart review, physician interview, patient interview, and observation in assessing physician performance in the office; and 3) a pilot test to evaluate the use of these methods in conjunction with continuing medical education.

David S. Gullion, associate director of EPME, will serve as principal investigator. The proposal was initiated, developed, and written by Barbara Gerbert, a doctoral candidate in the UCSF Health Psychology Program, who will act as project coordinator. Co-principal investigators are Michael S. Stulbarg (Medicine), T. Elaine Adamson (EPME), Howard Barkan (Ambulatory and Community Medicine), George C. Stone (Medical Psychology), Clifford C. Attkisson (Psychology), Homer Boushey (CVRI), William A. Hargreaves (Psychology), and Sheldon Greenfield (Medicine and Public Health, UCLA).

A committee established to advise UC President David Saxon on the state and health of the UC campuses will visit UCSF on Wednesday and Thursday, November 5 and 6.

Faculty, students, staff, alumni, and members of the community are invited to submit applications to address the committee and present their views. The meeting will be held on that Wednesday from 3:30 to 5:30 p.m. Applications should be sent to the President's Office, 714 University Hall, University of California, Berkeley, 94720, by October 22. Requests should include the applicant's name, title (students give major and year), telephone number, and a brief summary of the subject to be covered.

Because of expected demand, each applicant's oral presentation may not exceed five minutes, including time for questions to and from the committee, and should not repeat material covered in the application. Applicants will be selected by the committee, and will be notified by telephone of their individual presentation time and place of the meeting.
